

M-2021-09-07

Status:	COMPLETED	Points of Contact:	help@pawsey.org.au
Start Date/Time (AWST):	07 Sep 2021 08:00	Responsible:	Mark Gray (Head of Platforms)
Estimated End Date/Time (AWST):	07 Sep 2021 20:00	Accountable:	Ugo Varetto (Chief Technical Officer)
End Date/Time (AWST):	07 Sep 2021 16:15	Informed:	MailChimp - Pawsey users
Summary:	Pawsey Scheduled Maintenance		
Systems/Services Affected:	Data: Data Portal, Mediaflux, DMF, NGAS, CASDA, RDS Storage		

Description:

The Pawsey Supercomputing Centre schedules Maintenances for the first Tuesday of every month, between 0800 and 2000.

Whilst not every Maintenance will require outages to services, Pawsey systems should be considered as "at risk" during those times.

Changes:

- Data: Upgrade ZA Library firmware
- Data: Fix storage array errors

Updates:

- **16:15** All work has been completed

Further information:

Individual operational units within Pawsey may provide information, as to the work they are carrying out, via their own pages.

Such pages, if created, will be linked to from here:
